Description

Modern pocket otoscope with LED lamp

Modern pocket otoscope in a unique, compact design. Handy and powerful, instrument head matt-black inside. Eliminates reflexes. Distal fiber-optic (EO) illumination with enhanced LED technology with 100% more light compared with LED lamp.

Attachment clip with integrated on/off switch. Switches off automatically when returned to the pocket. Supply: 10 single use mini speculum (2.5 and 4mm) with storage bottle packing in black pouch.
